The Republican National Convention.

Assembles at Philadelphia on Tuesday the 17th inst. Upon the nomination made by this Convention will be concentrated the real opposition to the pro-slavery and border ruffian party which the swept away the Missouri restriction against slavery, produced the disgraceful outrages in Congress and almost plunged the country into civil war. Whoever the candidates of that Convention may be, they will stand upon a platform of constitutional freedom, and go for restoring our Government to the principles upon which it was founded, but from which it has been swayed by the pro-slavery interests which have controlled it. There is no contest for *men* among the Republicans, or among the sincere opponents of the pro-slavery democracy. They will cheerfully accept for their standard-bearer either of the distinguished gentlemen who have been named, who may be selected by the Convention as a candidate for the Presidency. The great object is *union for the cause of Freedom*, and the nomination of the strongest man. Upon this last point, there is some diversity of opinion; but, we have no doubt the delegates, by free and disinterested consultation, will be able to arrive at a satisfactory conclusion. The candidates who have been named are all sincere friends of freedom, and all worthy of either of the high positions for which nominations are to be made. The man who will unite the greatest strength for the Presidency, having the proper qualifications of principles, ability, and personal character, should be selected. Either of the prominent men who have been named can be elected President of the United States, by the union which we are satisfied will take place among the friends of freedom of free speech, and of human rights and the opponents of the lawless and oppressive violence which has recently reigned under the auspices of the pro-slavery party and administration. The prevalent feeling among the Republicans of Maine, is in favor of the nomination of Col. Fremont, so far as we can form an opinion; but all will cheerfully concede to the judgment of the Convention.

The Pulpit to be Gagged.

It is not enough that free speech is stopped with bludgeons in the United States Senate.—Our northern dough-faced politicians, in obedience to the intimations given by their slave-holding overseers, through the hands of Bully Brooks, are now attempting to gag the northern pulpits. The Bangor Journal, which is now entirely in the interests of the pro-slavery democracy, raises the cry of proscription against Rev. Mr. Battles of this city, and cries out "Crucify him!" because he recently denounced, in a manner somewhat offensive to pro-slavery men the infamous outrages in Kansas and in Congress — placed the responsibility on the right shoulders, and called upon the people to condemn the outrages at the ballot-box. The voice of the clergymen of all denominations has been faithfully raised against these outrages! and in our own city the Journal will find it necessary to empty all the pulpits, if it would satisfy the vengeance of the slaveholders. Sermons have already been preached against these outrages and their authors by the Rev. Mr. Allen of the Unitarian Society, Rev. Mr. Little of the First Parish Congregational, Rev. Mr. Haynes of the Central Congregational, Rev. Mr. Caldwell of the First Baptist, and others—and these sermons were quite as distasteful to the democratic leaders as that of Mr. Battles. The Journal knows full well that not one of the outrages so justly denounced would have taken place, but for the action of the *democratic party* in removing the slavery restriction from the territory north of 36 30, and in generally conceding to the demands of the slave power,—and yet the Journal is doing all it can to to sustain this same democratic party, by direct support of its candidates, and by lying assertions against the Republican party which alone is striving to rebuke the continued outrages against free speech and civil rights by the constitutional remedy of the ballot-box. The Journal pretends to denounce the outrages, but aids and supports the political party by whose action the outrages were caused—*by whose action the free settlers of Kansas are to-day crushed to earth beneath the armed heel of slavery*, WITH THE CONSENT AND BY THE AID OF THE DEMOCRATIC PARTY which sustains Pierce's action in sending U. S. troops to Kansas to suppress the free State men.

We denounce such hypocrisy as utterly despicable. A paper which condemns the outrageous treatment received by the people of Kansas, because it dare not do otherwise, but at the same time is engaged heart and soul in aiding the politicians who uphold the infamous slave laws of Kansas and justify the United States authorities in *subduing* the people so that they shall obey those laws—we say such a paper is unworthy the confidence or support of freemen. When that paper villifies and abuses our clergymen, and meanly misrepresents and falsifies the motives and actions of the friends of freedom, it proves itself a veritable organ of the slave party, whatever hypocritical pretensions it may put forth.

In its article denouncing Rev. Mr. Battles, the Journal repeats the lying statement that Gov. Reeder endorsed the legislature of Kansas, which passed the infamous Slave laws. It has been shown that Gov. Reeder indignantly repudiated that Legislature as illegally and fraudulently chosen, as soon as the frauds in the election were known to be as extensive as they were.

The Journal also re-asserts, with a contemptible equivocation worthy of its distinguished dough-faced friend from the Sixth Congressional District, that "the Black Republicans would not have the Missouri Compromise restored if they could." The writer of that sentence knows that that Compromise has been violated only in the *anti-slavery portion of it*—that the prohibition of slavery north of 36.30 is what has been repealed by the democratic party in the infamous Nebraska bill—and it knows that the restoration of this restriction is precisely what the Republican party claims. And yet with a base equivocation, worse than an open and bold falsehood, and with the slang of its locofoco allies, it asserts that the "Black Republicans are opposed to *restoring* the Compromise!"

The Journal talks about "restoring a healthy tone of public sentiment" in relation to these outrages. And what would be the Journal's "healthy tone?" It would be a tone of very gentle, considerate and moderate condemnation—a tone which should very carefully avoid giving offence to the men who have committed the outrages, or to the party which is responsible for them by its subservient action. It would be a tone which should finally subside into *acquiescence*, and be ready to receive with meekness any future aggressions upon free territory, and any future use of bludgeons to stop the mouths of free State members of Congress. It would be the same tone with which the northern dough-faces have always met, and yielded to the aggressions of the slave power, and which has encouraged the slaveholding oligarchy to persevere until freedom has hardly a name left in this Republic.

The "healthy tone" desired by the Journal would result in the election of a successor to Pierce who would follow in his footsteps, and be received as an endoresement or a submission to the outrages on the part of the North.

The Boston Courier publishes entire a speech of Mr. Butler of South Carolina upon Kansas matters, delivered March 6th, and that paper finds that it displays "genuine ability," "patriotic sentiment" and "gentlemanly tone and tenor,"—that it is "a statesmanlike and practical production." It is taken from the pamphlet edition, revised by Senator Butler himself, and of course has none of the insulting *manner* which it is said that Senator assumes when he alludes to northern free soil men, and would not be likely to contain any insulting language if such were uttered in the speech. The Courier publishes it to show that northern men have not been insulted by Mr. Butler; but it shows no such thing. If he did not in *that* speech call Mr. Sumner or any other northern Senator "a *liar*," or use other insulting epithets we have evidence that he *has* used that expression toward Senator Wilson, although we shouldn't expect to find it in a published speech furnished to the printer by himself. We have also the assurance of persons who have *heard* Mr. Butler speak, that he richly deserved all the castigation which Mr. Sumner, after long forbearance, bestowed upon him and others who have dogged the Massachusetts Senator ever since he has been at Washington.

The Maine Register and Business Directory for 1856, published by Edward C. Parks of South Berwick, and elegantly printed by George Adams, Boston, is now for sale by Bugbee & Co. of this city. The work is got up in the same excellent style as the Directory of last year, and contains a very large amount of information relative to the Mercantile, Professional, Manufacturing and Mechanical departments, with a comprehensive view of statistical facts connected with the civil government, public works and internal improvements of our State.

Six Months in Kansas.—Messrs. John P. Jewett & Co. have just published in book form, at a low price, a series of interesting letters from a lady who went to Kansas in September 1855, and returned to Massachusetts in April 1856. They were written to her mother, and contain a free and graphic description of personal experience, adventure and observation in that territory to which all eyes have been recently turned. She speaks of the outrages in Kansas with the strong feeling of a woman's heart.

The book is for sale by E. F. Duren. Price 50 cents.

The Next Democratic Convention. It is stated in the newspaper reports of the closing proceedings of the Cincinnati Convention, that a resolution was passed naming *Charleston, South Carolina*, as the place of holding the next Democratic National Convention. Was this intended as a compliment to the "chivalrous" Brooks? or as a token of respect for the eminent devotion to the "Union and the Constitution" hitherto manifested by South Carolina?

The Mount Hope Cemetery Corporation held its annual meeting on Tuesday the 10th inst. The following officers were elected for the current year:

Moses L. Appleton, *President.*
John Bright, *Secretary.*
Albert W. Paine, *Treasurer.*
John B. Godfrey, Albert Emerson, James B. Fiske, *Executive Committee.*

Fire.—A small house occupied by Mr O'Connell, on French St. below State, was partially burned yesterday afternoon. By the prompt services of the department, the fire was speedily extinguished. There are many wooden buildings in the immediate vicinity.

The city of Boston has voted against the annexation of Chelsea to Boston. The ballot was taken on Monday, and stood yeas 1318, nays 3395—a very small vote.

[For the Whig and Courier.]

Mr. Editor: Will you be kind enough to inform me if the *chivalrous Herbert*, who so lately sought to extend the plantation tyranny of the slave-holding oligarchy over free laborers, by shooting Mr. Keating, the Irish servant at Willard's Hotel at Washington, is the same Herbert who figured as a member of the "*Democratic Convention*" at Cincinnati last week, which nominated Mr. Buchanan for the Presidency.

By giving the desired information you will do a favor to Some Adopted Citizens.

Herbert was a delegate from California, and was present and acting in full communion with the Democracy. Mr. McGee demanded his expulsion; but his letter was treated with contemptuous silence.

We commend the following from the *Providence Journal* to the consideration of Straight Whigs.

The Journal, it is well known, was one of the ablest and most influential of the old Whig papers, and has hitherto been averse from abandoning the Whig organization. But it has lately perceived the absolute necessity for a union among all who are opposed to the pro-slavery democracy, as no more Whig organization can ever defeat the sham democratic party, which sustains Southern men and Southern measures, and violates solemn compacts with the result of bringing violence, bloodshed and the threatened civil war upon the country. It is this view of the impotency of mere *Whig* effort, which has induced us to advocate a practical union among all the friends of freedom, to put down the democratic party which is the main-stay of slavery.

The Providence Journal, has these comments on the Sumner assault, closing with a piece of good advice to Straight Whigs:

"There is no longer any doubt that the assault on Sumner was not an act of an individual, but the result of a deliberate, well considered resolution on the part of the South to silence the arguments that they could not answer, and to suppress the liberty of speech by such an example as would create a general terror.—'The time and place' were left to a man appointed to the work; the act itself rests upon the responsibility of the South which planned it, and the democracy which sustains it. It was South Carolina striking Massachusetts; it was the South striking the North. The declaration of Brooks and Keitt in the House show this: the votes of all the Southern members in the House but two, of all the administration members but five, show this; the bullying tone of the Southern press, and the sneaking apologetic tone of the Northern Democratic press show this.

It is no longer a question of a sectional party. The South has formed a sectional party upon us; the question is, on which side of the sectional party will you stand; *on the side of freedom, the law and the constitution, or on the side of slavery, the pistol and the bludgeon?*"

A great meeting of the people was held at Lewiston some days since to express the indignation of the people at the outrages upon Senator Sumner, and upon the free State men of Kansas. Some of the democrats who now leave the party were present; but the leading dough-faces, although pretending to condemn the Sumner outrage, would take no part in the meeting. The Democratic Advocate, like the Bangor Journal here, calls the meeting a "one-sided affair." Whereupon the Lewiston Journal says:

If they had entered into the spirit of the call—if they had been prepared to openly denounce the propagandists of slavery—if they had loved freedom more and Douglas and his compatriots less, then there could have been no "political capital" made by any party. But where fault was it that these precious notables did not sign the call? Whose fault was it that they did not attend? We know that leading democrats were asked to sign, and they refused. One in particular remarked that *"Sumner must take care of his own head, for all of him."* If the managers of the administration party would not join their voices with other citizens in condemning these outrages, we could not help it. The fault was their own. They were invited to give substantial evidence of their love of freedom, and if they refused, they must not complain, if our citizens drew the legitimate inference which follows their conduct.

There were, however, many who have never been republicans, who attended and took part in the proceedings of the citizens' meeting.—There are many more whose eyes have been opened by the conduct of the democratic leaders on that occasion. If the sentiments that were uttered at that meeting are "one-sided," then every true American desires to be "one-sided." If the "capital" there "manufactured" militates "against the national democracy," then very many who have heretofore been democrats propose to be counted out of the "national democracy."

For Kansas.—Fifteen or twenty stout and staunch free soil men will be on their way this week, from this city and vicinity for Kansas. A portion of them left in the boat on Monday.

The body of Mr Wm. Richardson, a well known lawyer of Boston, was found in the Neponset river, on Saturday, and circumstances indicate suicide.

Missing Vessel.—The Bark A. F. Jenness, of Portland, owned by Chas. Leavitt & Co., and others, sailed from New York January 4, 1856, for Antwerp, and has not since been heard from.

On board of her were the following persons:

Francis Osgood,	Master, of Portland.	
Charles Spencer,	1st Mate,	England.
Louis D. Hawkes	2d Mate,	Buckfield, Me.
Samuel Taylor,	Cook,	New York.
John Jungnofen,	Seaman,	Sweden.
Edouard Wilburg,	"	
John Jording,	"	
H. Smith,	"	New Orleans.
John Warring,	"	Maine.
Thomas Maury,	"	New Orleans.
N. Sparhawk,	"	Maine.

The A. F. J. was a good bark of 836 tons, built at Portland in 1848, and had a cargo of 6962 bags grain, 1000 bbls. flour, 300 bbls. resins, 3000 pipe staves, and is fully insured. *Port. Adv.*

The New York Herald anticipates "one of the most exciting, tumultuous, and revolutionary political contests in all the history of the republic," and adds:

"Many of our hopeful democratic fellow citizens will refuse to believe that there will hardly be a fig-at—that Mr. Buchanan, with scarcely a show of resistance, will walk over the course. We have only to say, looking calmly over the whole field, that for all such as entertain the hope of that there will be no struggle, the doors of the Cincinnati asylum had better be opened at once.—We have no doubt of the fact that a vast majority of the American people, in the present distracted condition of the country, are opposed to the democratic party, as debased and demoralized under the malign influence of this Pierce administration; and we believe that there would still exist a majority of the American people opposed to the ratification of the debaucheries of this corrupted party, even if they should nominate as their representative an angel from heaven. This is our conviction and our belief."

Telegraphs vs. Double Tracks. Mr. D. C. McCallum, the experienced Superintendent of the New York and Erie Railroad, in his report for 1855, lately issued, affirms that a single track railroad is safer and more efficient by the proper use of the telegraph, than a double track without its aid. The double track obviates collisions on trains moving in opposite directions, but not in the same direction; and it is limited to be a well-established fact that collisions between trains moving in the *same direction* have far the most fatal and disastrous. He agrees that a single track with proper signals and the use of the telegraph, is a more profitable investment than a double track without a telegraph. "In the building of telegraph nothing is left to chance."

The "Honor" of Slavery and of the Democratic Party.

Brooks, soon after he had committed the brutal, cowardly and murderous assault on Senator Sumner, had the unblushing effrontery to stand up in the House of Representatives, and with a lie on his lips, to talk about his "honor as a gentleman!" The "honor" of the slave power and of the democratic party, as illustrated by their readiness to violate the most solemn compromises and compacts, is on a par with that of Brooks.

The "Baltimore Platform," adopted by the Democratic party in 1852, has just been re-affirmed by the Cincinnati Convention, and is published by the Democratic papers, together with the additional resolutions, as part of the enlarged platform of the Cincinnati Convention. The fifth resolution of the Baltimore Platform of 1852 is as follows:—

5. Resolved, That the Democratic party will resist all attempts at renewing, in Congress, or out of it, the agitation of the slavery question, under whatever shape or color the attempt may be made.

This was what the slave power, through the Democratic party promised in 1852! It had defeated the application of the Wilmot Proviso to newly acquired territories. It had secured the passage of the Fugitive Slave Law, and, in short, gained a great victory in the passage of the "Compromise Measures" which were finally acquiesced in by the Free States, on the condition that this "settlement" should be a "finality," at least to the demands and encroachments of slavery. It shall be a "settlement"—it shall be a "finality"—said the slave power! And in accordance with this promise, and to secure acquiescence in these measures, the Democratic party, in National Convention assembled, adopted the resolution we have here copied, and President Pierce, in his inaugural address, re-affirmed it! But how was the promise contained in it fulfilled? By the repeal of the Missouri Compromise, and an attempt, through violence and fraud, and by a prostitution of the power of the General Government, to extend slavery into territory which for over thirty years had been solemnly dedicated to freedom!

And now, this same party re-affirms the same resolution, together with one expressly approving of the repeal of that Compromise, and denying the power of the Government to prohibit slavery in the territories! "Upon its honor" as a party, it adopts these resolutions, with as much gravity as Brooks assumed when he spoke of his "honor as a gentleman!"—*Portland Advertiser.*

Mr. Pierce has been treated by his friends with an incredible excess of cruelty.—They went in solemn procession on Friday night to the White House, to congratulate the President upon the blight of all his hopes, and actually forced him to come out and make a speech in honor of his own destruction. He avenged himself for the indignity in the only possible way. He extended to Buchanan his fatal friendship, he piled upon the shoulders of that unfortunate man the weight of all his own misdeeds, he ruined his successful rival by extending to him the hand of fellowship.—Douglas and Pierce are both playing the same game it would be a stupid revenge to both; they prefer to kill Mr. Buchanan by kindness.—*Argus.*

A Yorkshire Account. A bill, of which the following is a copy, was lately presented to a rev. gentleman officiating in a rural district, who was indebted to the writer for a wheelbarrow:

		s.	d.
Rev. ——	dr. to Wm. ——		
To a wooden barrow and a wood'n do.		4	6
To a wooden barrow and a wood do.		4	6
		4	6

As the gentleman had only incurred a debt for one barrow, he was surprised to find himself apparently debited in a bill for four, and his puzzle was rather increased than diminished on finding the total amount only equal to a single item. Upon inquiry, however, it turned out that the account was a kind of specimen of rustic phonography which translated, meant that the writer had made a wooden barrow that wouldn't do, and a second which did do, and which alone he had charged for.

Suicide.—Mr Charles G. Kendall, of the firm of Kendall, McDonald & Stetson, 8 Pearl street, committed suicide yesterday afternoon, in the attic of his house, 8 Somerset street, by hanging. When discovered, it was thought that he could not have been suspended more than twenty minutes. No cause could be assigned for the commission of the act. Deceased leaves a wife and children.—*Boston Journal.*

Women Violated in Kansas. It is stated by several persons from Kansas, and there is no doubt of the fact, that a gang of the "law and order" ruffians, just previous to the sacking of Lawrence, seized two young ladies from their mother's house, near that city, carried them into the woods, and outraged their persons. There is a day of retribution coming for such things.

During a thunder storm, a few days ago, the lightening came down upon a pasture of Chas. Titcomb, of Kensington, N. H., descending perpendicularly into the earth for about thirty feet, so as to form a good well of water. The hole is big as a barrel, and is formed, like the holes of the chipmunk, without throwing out any earth.

A lecturer, descanting on the essential and purifying qualities of cold water, remarked, as a knock-down argument that when the world became so corrupt that the Lord could do nothing else with it, he was obliged to give it a thorough scouring in cold water. "Yes," replied a wag, "but it killed every darned critter on the face of the earth."

The Boston Ledger states that on Wednesday evening the body of a man was found by the police floating in the water near the Sea Street bridge. The name of "W. Whitehouse" was found written on the watch pocket of the pantaloons of the body, and about $40 in bills, mostly on Boston Banks, were found in the pockets.

During a shower on the evening of the 24th ult., the house of Capt. Wilmot Wass, of Harrington, was struck by lightning, and shattered so badly that it is thought it will have to be torn down and built anew. There were six persons in the house, but no one was injured.

The North Bridgewater Gazette, says that a dandelion plant was recently plucked from Nathaniel Holmes' farm in that town, which weighed twenty-seven ounces. It had two hundred and seven buds and blossoms.

Mr. Jewell looks ahead. His new baby is to be christened Aaron, so that people may compliment him when they say, 'Consistency, thou art A. Jewell."

A Yankee describing an opponent, says:—"I tell you what, sir, that man don't amount to a sum in arithmetic—add him up and there is nothing to carry!"

"Sam, why you no tell your Massa to lay him up treasures in Hebbin?" Why for, Cuff? What de use ob him lay up treasure dare, where his nabber dig um again, oh, nigger?"

New wheat appeared in the Augusta, Georgia, market on the 8th, and new flour will be furnished by the 20th.

A Strange Pedlar.—Under this caption the Pittsburgh Dispatch records a little occurrence that took place in Alleghany City last week, which borders somewhat on the romantic:

Mrs. ——, a California widow, as ladies generally are termed whose husbands are absent in the land of gold, was startled one morning in the early part of the week, by a loud, impatient knock at the hall door. Her attendant was out, and being rather hurried and in the second story, she looked out of the window to ascertain who the visitor could be. The appearance of the individual at the door was rather striking. His wearing apparel was coarse, ill made and very much out of fashion. The hair on his face almost entirely concealed his features. The lady thought, that like Sampson, a razor had never passed over it since the day of his birth, and certainly, to say the least of it, no one would even for a moment have thought it necessary for him to carry at Jericho until his beard was grown. Under his arm he carried a large parcel, neatly done up.

After a moment's consideration, Mrs. —— came to the conclusion that he was a pedlar, who had just left the backwoods to pursue his avocation in our sister city, and therefore very politely informed him that she did not require anything.

"You had better examine what I have got," replied the stranger.

No—it would be only troubling him, she would not purchase.

"Well, come down and open the door," persisted the stranger.

The lady's patience was almost exhausted by his importunity, and she was about to administer a rebuke, when her ear detected the suppressed laughter of the stranger. She could not see the broad grin on his face, prevented her, but she did hear him laugh, and his voice was familiar to her. So descending she opened the door, and the next moments she was clasped in the arms of the rough individual before her, who proved to be, not a pedlar, as she had imagined, but her long absent husband. His beard was of three years' growth, and he had returned home in his mining habiliments purposely to surprise her. We will merely add that on second thought the lady did want most if not all of the articles in the parcel, which contained a goodly collection of silks, satins, brooches, bracelets, &c., and that the supposed pedlar, after going through the hands of a barber, and a merchant tailor, has turned out to be as fine a looking man as any in the country.

To all Bald Headed People!

NOTICE EXTRAORDINARY.

☞ Reader, do you desire a good head of Hair? If so, use Delight's Spanish Lustral. It is to the scalp what Guano is to the soil—the great invigorator and restorer of nature's own. Do you believe that hair, soft and *silky* as in youth, has been produced on heads that had been *bald* for years? Such is the case, and to satisfy the public we mean what we say, we will pay all necessary expenses incurred in visiting Lawrence, if not satisfied that such has not been done in Lawrence in a great many instances. Further, the subscribers offer to warrant a good set, silky head of Hair so any one enjoying good health, and not over fifty years of age, for twenty five dollars, or no pay.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, June 11.

SENATE Mr Bright having returned, Mr Stuart resigned the office of President of the Senate and Mr Bright was again elected. He made a short address, citing precedents to show that in conferring the appointment on Mr Sumner he did not assume an authority which did not belong to him, and which had heretofore been exercised in similar cases. The chair then read before the Senate the resolutions of the Commonwealth of Massachusetts, in reference to the assault on Mr Sumner, and they were read.

Mr Butler said they contained a foregone conclusion because they pronounced judgment before the subject had been investigated. He said it or insulting mockery for the Legislature to ask the South to investigate the matter where they had pronounced judgment upon it. He would say no more now, but would move that the resolution be laid on the table and be printed. Agreed to.

Forty five thousand copies of the Agricultural portion of the Patent Office report were ordered to be printed.

Mr Crittenden moved to take up his resolution requesting the President to give General Scott the command of the United States troops in Kansas.

Mr Hale hoped the consideration of the resolution would be postponed for a few days, as but half the Senators were present.

Mr Clayton said, if it was important that what was proposed should be done at all it was important it should be done at once. He anticipated benefit from the resolution, and hoped it would be adopted. The sending of Scott to Kansas must have the effect of calming the public mind.

Mr Brown opposed taking up the resolution believing that interference by the Senate in the matter would be calculated to increase the alarm. He did not believe there was such a state of affairs as to call for such an extraordinary proceeding. He was not willing to assume a part of the functions of the Executive but would leave the subject to the President. He was opposed to mingling the responsibilities of the Executive and Legislative branches and any difficulty should ensue he was ready to know who was to blame.

Mr Butler remarked that it was not known but that he may yet vote for the Senate were in favor of the resolution. He would ask the Senator who had said there was no such scenes as proceedings in Kansas as would justify this course, whether he did not credit the accounts daily received from both sides, relative to riots and bloodshed in Kansas? In view of these things, no Senator can doubt that they demand consideration.

Mr Brown replied that to a very limited extent he credited the telegraphic accounts. He denied the greater part of them were manufactured for the occasion. He was not prepared to censure the President—but the adoption of the resolution would be understood by the country as an expression of the Senate that the President had not performed his duty as he ought to have done.

Mr Toucey knew of no power in the Senate to act in the manner proposed, any more than would be possessed by an equal number of citizens assembled in any portion of the country. If the Federal State should be sent to Kansas what would be the result there? We have under a government of law, and if the law call out a "posse comitatus" to aid in the enforcement of the law, we enjoyed that Gen Scott was to act in subordination to the Sheriff as one of the posse? It was the object he did not approve of it because it was calling upon the highest officer in the army to go there and perform the ministerial duty of aiding the sheriff to make arrests, and bring criminals before courts of justice. But unless that was the object it could not be that an appeal was to be taken to the courts of justice to the military power. It is a fact that kind should arise under the constitution and laws of Congress there was ample provision, but the military power could only be employed in case of actual insurrection or rebellion, but how many insurgents were now in arms against the government? He did not believe it would come to that.—Let there be obedience to "law," and all difficulty would cease. He objected to the resolution because it was out of the ordinary course for the Senate to tender advice to the President upon a matter exclusively within his jurisdiction.

The "law" to which Mr Toucey says there must be obedience is border ruffian law.]

Mr Adams remarked that the President has power to recommend to Congress the enactment of such laws as he might think desirable, but he could find no power by which Congress could recommend to the President how he should perform his duties.

Mr Mallory was opposed to taking up the resolution, and should vote against it in any form. It implied an indictment on the course of the Chief Magistrate in command of the military forces now there.

Mr Crittenden was not a little surprised at the opposition which had been unexpectedly manifested to the resolution. He had hoped for a different result. It was proposed in the most simplicity of purpose, to amend by it the anarchy and bloodshed now prevailing in Kansas might probably be suppressed or ended. The proposition could do no harm, it might result in good. It was easy for gentlemen to say that it all would obey the laws there would be no trouble, but the point was still in consequence of the frailty of human nature there were always some who would not be willing obedience to the law. The remedy was not adequate to the disease—all should obey the laws there would be no courts, judges, sheriffs, or juris, but it was known there were those who did not—these laws were of such a character as to make all their obedience. It was contended these laws were fraudulently made, and were invalid.

Mr Mallory wouldn't interfere with the duties of the President, unless the Senate tho't he had not done his duty, it should'nt meddle.

Mr Mason thought all had been done which could fairly be allow in the "unfortunate" state of things in Kansas.

Mr Clayton cited a precedent, saying in the year 1820 the Senate in executive session have passed a resolution suggesting to the President to send a minister to Rio. A minister was appointed, doubtless in consequence of this suggestion.

HOUSE The Speaker laid before the House a message from the President in reply to the resolution calling for any information regarding the action of the leading powers of Europe relative to privateering and the proceedings of the Paris Conference thereon, saying that no information of that character had been officially communicated to this government.

The Civil War in Kansas—Particulars of a Late Battle.

New York, June 10—The following special dispatch is confirmatory of previous advices:

"*Lawrence*, June 5 An open field battle took place at Palmyra on the afternoon of Monday, 2d inst. It lasted nearly three hours. The parties were nearly equal. The pro-slavery men were a roving band, under Capt. H C Pate, correspondent of the Missouri Republican. Five of the pro slavery men surrendered, with 25 horses and mules, arms and ammunition, two drums, and a large quantity of articles stolen at the sacking of Lawrence. The U S. troops knew of the battle, but did not interfere. The free State settlers clustered to Palmyra, and 100 got there after the battle was over. The troops went down the next day to disperse the Free State men and release the prisoners. Another attack was made on Franklin, when the Missourians had assembled in force, with cannon and ammunition. Only one of their companies got there, and they were shot about 15 men. After 20 minutes the small party retreated.—no particulars.

Civil war exists here.

The troops are here in force, but have done nothing yet but help Gov Shannon to get Sharp's rifles.

KINGDOM OF POLAND The Paris correspondent of the Courier and Enquirer writes, May 22d

Four o'clock—I resume my pen to announce to you a most gratifying piece of intelligence:

The restoration of the kingdom of Poland is resolved upon by the Czar, at the recommendation of his majesty, Napoleon III, Emperor of the French.

There is nothing of this in the regular news by the last arrival.

Colonel Benton accepts the nomination for Governor of Missouri.

Thirty Years Experience of an Old Nurse.

Hear the Brooklyn Daily Advertiser

We cheerfully comply with the request of a friend to insert the following letter, which we are assured is from a lady of the first respectability, residing in Lowell, Mass., believing that a vast amount of suffering may be prevented, and many valuable lives saved, by calling the attention of mothers to this valuable prescription of an old and experienced nurse:

"Dear Sir—I am happy to be able to certify to the efficacy of Mrs. Winslow's Soothing Syrup and to the truth of the statements represented in the circumpamphlet. Having a little experience myself from the use of it, and could not rest, and at night by watchers would not permit any of the family to sit, I purchased a bottle of the Soothing Syrup in order to test the remedy, and almost gave to the boy according to directions in effect upon him, which like magic, he soon went to sleep and all pain and nervousness disappeared. We have had no trouble with him since, and the little fellow will pass through with comfort the dangerous teething process of teething by the sole aid of Mrs Winslow's Soothing Syrup. Every mother who regards the health and life of her children should possess it.

WHALEBONE SKIRTS.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless The Ladies, by referring to Frank Leslie's Gazette of Fashion for April, will notice that E & J HOLMES have from actual experience been successful in producing this desirable article, and that their PROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies They are light pliable and easily adjusted, and the only Skirt which is equally adapted to the parlor, the street and the crowd, are made in one piece or breadth, and in our opinion and that of thousands of ladies who have bought them, the most reliable article of the kind in the market We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord and all starched goods cannot be used satisfactorily, as they will not recover their place when pressed out of shape We consider all

WHALEBONE SKIRTS

as *worthless*, of whatever material made, unless there is *something of sufficient stiffness and elasticity*, and at the same time yielding and pliable, to keep the dress in proper shape below the hoops To accomplish this we have our cord made under our own direction, and expressly for our goods and from the only material that can be used that will recover its proper place when pressed out of shape, and are so braided in manufacturing that they will not roll or curl when wet and warranted to wash without injury The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods

PLEASE NOTICE.—Every genuine article is stamped *E & J Holmes' Improved Seamless Whalebone Skirt*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

E & J HOLMES, *Boston.*

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Reduced Prices. 100 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama &c.

By order of the Postmaster General, the United States Mail Steamer will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire through tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line *a sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

[Copy of a Letter.]

BALTIMORE, Jan. 8, 1856.

Messrs. C. & J Marshall—Gentlemen—At the request of your Agent in Baltimore, in regard to our opinion and experience of your copper coated spikes, we, without hesitation, say we believe them the best substitute for copper yet introduced, and better fastening for ships, inasmuch as you have the strength of iron with the preservative qualities of copper.

We have used some of your Spikes in old vessels as a substitute for copper, and have had occasion to draw them out a year afterwards, and found them with the coating as firm as when they were driven, and with no appearance of oxidation.

Very respectfully yours,

(Signed) JOHN D. FARDY & BRO.

Singer's Sewing Machines.

ALL PERSONS who desire to obtain full and reliable information respecting *SINGER'S SEWING MACHINES*—their price, capabilities advantages, sizes, improvements, method of working, means of procuring them, and all other particulars—can do so by applying at our office,

No. 323 Broadway, New York,

or by letter or in person, for

I. M. SINGER & CO'S GAZETTE.

This paper is devoted entirely to the Sewing Machine interest. Copies will be supplied gratis to all interested.

N. B—The unparalleled success of our Sewing Machines has induced several fraudulent imitations of them, besides numerous infringements of our patents—of which we own sixteen. Suits for the infringement of our patents have recently been decided in our favor in the U. S. Circuit Courts in New York and New Jersey. In these suits the great principle of

Holding down the Fabric to be Sewed to the Surface of the Machine, by a yielding pressure,

which is used in all Sewing Machines—has been fully established. The Wheeler & Wilson, and the Grover & Baker Sewing Machines as all or each infringe three distinct patents owned by us. We have suits against them in several of the U. S. Courts, which will soon be tried. We hereby caution the public not to buy any infringing Machines, as they can be compelled by law to stop using them, and to pay costs and damages.

☞ Local Agents wanted to make sales of our improved sewing machines. To persons properly qualified for the business, a rare opportunity for profitable and pleasant employment is offered.

New and improved machines exchanged on liberal terms for old machines of every kind.

HELMBOLD'S GENUINE PREPARATIONS.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu.

A CERTAIN, SAFE, AND EFFECTUAL REMEDY

For *Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Stone Diseases, Obstructions, Female Complaints,*

and all Diseases of the Sexual Organs, whether in MALE OR FEMALE,

from whatever cause they may have originated, and

No Matter of How Long Standing.

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the complaints. It searches out the very roots of the diseases, driving out all the diseased humors of the body, thus removing the cause and rendering a cure

Certain and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less trouble and exposure to patients. This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

and from premature graves. In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in preforming a

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is purely VEGETABLE, COMPOSITION. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or exposure, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

Delays are Dangerous.

Wait not until the medicine you can cure yourself, and thus prevent all exposure.

Truth must and will prevail

This medicine speedily and effectually cures the most virulent form of secret disease, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity.* And as a medicine which must benefit everybody, from its simple delicate to the confined and despairing invalid, no equal is to be found, it acting both as a *Cure and Preventive* of any of the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and, in consequence, are frequently improperly made, and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration and importance to the public, and to the facility, that there should be standard preparations of uniform strength and possessing the most advantageous. To effect this, and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonsfulls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle is fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5

GREAT American and Foreign Office,

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE UNITED STATES PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Exchange St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Assistant U. S. Patent Office under the Act of 1836,) has opened an office, situated to present advantages in applying for patents in the United States, and procuring them in foreign countries, to inventors. He will make arrangements, whereby on application, a model and description prepared and forwarded to him, (which in most cases will not require the model to be made,) and within THIRTY DOLLARS! (instead of *twenty, one hundred, or two hundred dollars, as charged by others.*) will be remitted by him to the inventor, and the whole business transacted to obtain a patent, and the whole time, from the time he receives the model, within thirty days after the papers are forwarded to Washington.

The Agency is not only the oldest established one in the United States, but also the largest in the world, and through it inventors have the best facilities for securing patents, or ascertaining the patentability of inventions, unsurpassed by any establishment in the United States, and probably unequalled anywhere, as the Agency is measurably superior to, and in which cases rejected elsewhere. The testimonials to be found in every State prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE TEST-PROOF OF ADVANTAGES AND ABILITY possessed, and that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during seven years past, has enabled him to acquire a vast collection of specimens and models illustrative of decisions relative to patents. These, with an extensive library of legal and mechanical works, and full accounts of patents granted by the Office of the United States and Europe, render him able, by investigation, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procuring of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents. All necessity of a journey to Washington to procure a patent, and the usual delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar.* Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents,*

Late Commissioner of Patents.

TESTIMONIALS

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, was in the Patent Office as Solicitor, in which capacity he acted with so much business before the Patent Office as any one person who is conducted it with more ability and success. I regard Mr. Eddy as one of the most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a proper form to obtain an early and favorable decision at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"August 27, 1855.—During the time I have held the office of Commissioner of Patents R. H. EDDY, Esq., of Boston, has been extensively engaged in procuring patents at this office, as a Solicitor. He is thoroughly acquainted with the law, and the rules and practice of the office. I regard him as one of the most able and successful practitioners in whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents."
